NEW
YOUTH CODE
LUMINOSITY

Dear Member,

Sun, sea and sport? New Zealand women are more susceptible to increased facial pigmentation (freckles, sun spots, dark spots) as early as their mid-20's. Skin appears dull and uneven.

That's why L'Oréal Paris has developed Youth Code Luminosity Extraordinary Correcting Serum and Youth Code Luminosity Hydrating Day Cream just for women aged 25-40!

The Lumi-Gen™ technology in this beautiful skincare range fades dark spots from within the skin and illuminates the skin. The result is a healthy, even, natural glow. Your skin regains its youthful luminosity!
